# Making Dentistry Understandable and Enjoyable!

Advanced Dentistry of Spring has been in the same location since 1985, and is conveniently located near Klein High School, across the street from Sonic on Louetta Road.

With today's busy lifestyle it's nice to have all of your dental treatment performed in one office (without having to drive all over town for multiple dental services).

"With four boys, my wife and I know what it's like to have a busy schedule. At our office we have tried to create an environment to make dental treatment for your entire family convenient and easy...at one location," said Dr. Glass.

Advanced Dentistry of Spring provides a complete range of dental and orthodontic services, from braces for kids, to teen Invisalign and adult Invisalign, to 6-month braces for Adults. They also provide removal of wisdom teeth, placement of dental implants, and sedation performed by a board certified oral surgeon.

Its not unusual to have Mom & Dad getting their teeth cleaned by a highly trained hygienist while the kids are having their orthodontic wires changed. In other instances, siblings are having their cavities treated while their older teenage brother or sister is having their wisdom teeth removed by the Oral Surgeon.

To make patients appointments more comfortable, each operatory room is equipped with laughing gas, as well as ceiling mounted TV's. Kids love watching cartoons while getting their teeth cleaned and their parents love keeping up with the news and weather. Upon leaving, all kids get prizes for being great patients.

The office has all the latest technology to provide top quality care. Advanced Dentistry has state of the art digital x-rays providing high quality images with low exposure. Cameras will show your teeth up close on the overhead TV's so you can see what the dentist sees during you examination.

*"Cosmetic crowns can be made the same day and patients do not have to wear a temporary or take an impression. Patients love the convenience of getting as much treatment done in one day as possible so they do not have to return multiple times."*

"Our entire staff would like to thank the Gleannloch Farm residents that have been our patients for years! We appreciate all of your referrals. We look forward to continuing our support of the local community," said Dr. Glass.

Dr. Glass and his wife Dabney have lived in Gleannloch Farms for 6+ years with their 4 boys: Dylan, Devin, Holten, & Wyatt. The kids attend Hassler Elementary and Doerre Intermediate. Dr. Glass graduated Texas A&M University with Honors and University of Texas Dental Branch. He has extensive training in Implant Dentistry, Orthodontics, and Cosmetic Dentistry. He is a member of the American Dental Association, Academy of General Dentistry and the American Orthodontic Society. He was awarded the Fellowship in the Academy of General Dentistry for his dedication to extensive Continuing Education and is a Fellow of the Institute of Advanced Laser Dentistry.
